WORK EXPERIENCE

Software Development Engineer *July 2025 – Present*
Ai-TechTures Labs LLP *Vidyavihar, Mumbai*
Tech Stack: React.js, Node.js, MongoDB, Python, FastAPI, Django, TypeScript

- Full-stack developer experienced in building and maintaining robust web applications using **MERN**, **Django**, and **FastAPI** frameworks, with expertise in both **TypeScript** and **JavaScript**.
- Worked on diverse projects including **CRM systems**, **Analytics Dashboards**, and **E-Commerce platforms**, delivering optimized, scalable, and user-friendly solutions with **seamless integration** between backend and frontend systems.
- Improved search efficiency by up to **81%**, enhanced **authorization workflows**, and significantly refined **frontend performance and UI/UX**. Known for diagnosing and resolving complex bugs, and implementing efficient data structures.

Full Stack Developer Intern *Mar 2025 – Jun 2025*
Nextgen Infratech Solutions LLP *Ghansoli, Mumbai*
Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS

- Worked on the **MERN Stack** and **Tailwind CSS**, contributing to full stack development.
- Led the creation of **high-performance, responsive applications,** implementing **media-responsive** designs to improve user engagement. Collaborated on **GitHub** for efficient control and feature integration.

PROJECTS

FloorMaster

- Developed CAD-based architectural rendering application using React, TypeScript, and PixiJS with custom geometric algorithms for polygon generation, edge detection, and real-time wall drawing with intelligent vertex snapping and intersection handling.
- Engineered sophisticated fragment outline system with edge suppression logic and optimized rendering pipeline, achieving 60fps performance for complex floor plans through spatial indexing and viewport culling techniques.
- Implemented interactive editing toolkit with drag-and-drop manipulation, undo/redo functionality, and CAD-compatible export formats, reducing architectural design time by 60%.

EduBase

- Developed university data management platform using React and Django REST Framework with multi-step forms capturing hierarchical university, campus, course data, implementing Django ORM with cascading updates and referential integrity for 1000+ educational institutions
- Built data validation pipeline with normalization logic, bulk import/export functionality (Excel, CSV), and administrative dashboard featuring quality monitoring and efficient querying for nested academic program structures

AdmitHub

- Developed student counseling platform using MERN stack with hierarchical user management (Admins/Counselors/Students), dual registration categories, JWT authentication, and interactive community forum featuring peer discussions, Q&A, and moderation tools
- Engineered counselor-student relationship system with appointment scheduling, application tracking, document management, and comprehensive university catalog featuring 500+ institutions with advanced search/filtering.

SKILLS

Web Development: React.js, Node.js, Express, MongoDB, Tailwind CSS, Redux
Technical skills: JavaScript, Python, Socket.io, Git, TypeScript

EDUCATION

B.E. (Electronics and Telecommunication) with Honors in AIML *Chembur, Mumbai*
Vivekanand Education Society's Institute of Technology *2020 -2024*
CGPA: 9.02

HSC (Class XII) *Panvel, Mumbai*
New Horizon Public School *2019 -2020*
Percentage: 81.6%

CERTIFICATIONS

Complete Web Development Course: *Udemy* *2024*
JavaScript and React.js Bootcamp: *DevTown and GDSC* *2023*
Software Engineer Intern: *HackerRank* *2024*
Python for Software Engineering: *Udemy* *2024*
