SUMMARY

Software Development Engineer with 1+ year of experience building scalable, high-performance full-stack applications using React.js, TypeScript, Node.js, and MongoDB. Proficient in architecting component-driven SPAs, designing RESTful APIs, integrating AI/LLM-powered features, and developing graphics-intensive applications using advanced rendering and spatial optimization techniques. Experienced in Redux, JWT/RBAC security, responsive UI development, data visualization, CI/CD pipelines, AWS S3, and automated deployment workflows, with a strong focus on performance, scalability, and clean architecture.

SKILLS

Frontend	React.js, TypeScript, JavaScript, Redux, Axios, Tailwind CSS, HTML5, CSS3, Jest, Responsive Design, Cross-Browser Compatibility
Backend / DB	Node.js, Express.js, Redis, RESTful API Design, FastAPI, Django, GraphQL, JWT & OAuth, RBAC, MongoDB, PostgreSQL, MySQL, CRUD Operations
Cloud / DevOps	Docker, Redis, Nginx, Kubernetes, AWS S3, EC2, IAM, Lambda, API Gateway, CloudWatch, CI/CD Pipelines, Automated Deployment, GitHub Actions, Build & Release Automation
Tools / Concepts	DSA, RAG, Kafka, RabbitMQ, Git, n8n, Postman, Vercel, Agile/Scrum, AI-tools, SDLC, Debugging & Refactoring, Performance Optimization, Deployment.

WORK EXPERIENCE

Software Development Engineer | **Ai-TechTures Labs LLP** – Vidyavihar, Mumbai *Jul 2025 – Present*

Stack: *React.js · TypeScript · Node.js · MongoDB · PixiJS · OpenAI API · FastAPI · Django · Redux*

- Designed and delivered production-grade full-stack applications across AI analytics, CAD floor planning, and enterprise platforms using React.js, TypeScript, Node.js, and MongoDB; architected scalable component-driven SPAs with reusable modules and optimized state management.
- Engineered high-performance frontend systems featuring custom polygon generation, spatial indexing, viewport culling, real-time rendering, and AI-powered data visualization, achieving 60 FPS rendering performance and reducing end-user workflow time by up to 60%.
- Developed secure RESTful APIs, JWT authentication, RBAC authorization, Excel data ingestion pipelines, and MongoDB-backed services while collaborating through Git-based code reviews, debugging, performance optimization, and end-to-end production deployments.

Full Stack Developer Intern | **Nextgen Infratech Solutions LLP** – Ghansoli, Mumbai *Mar 2025 – Jun 2025*

Stack: *React.js · Node.js · Express.js · MongoDB · Tailwind CSS*

- Developed responsive, cross-browser-compatible MERN stack SPAs with mobile-first React frontends and RESTful APIs; collaborated with team in Agile sprints using Git branch management and pull request workflows.

AI-Driven Software Development Intern | **Accordo.ai** – Kharghar, Mumbai *Aug 2024 – Jan 2025*

Stack: *React.js · FastAPI · Python · Llama 3.2 LLM · Figma · GitHub*

- Built a ChatBot training our own dataset on Llama 3.2 1B Instruct LLM with full-stack integration via FastAPI and ReactJS; collaborated with the development team, applied analytical problem-solving to document.

PROJECTS

FloorMaster — CAD Floor Plan Editor · *React.js · TypeScript · PixiJS · Spatial Algorithms*

- Component-driven React.js/TypeScript SPA with custom polygon generation, edge detection & real-time wall drawing; achieved 60fps via spatial indexing & viewport culling optimization. Reduced design time by 60%.

VizIntel — AI-Powered Analytics Dashboard · *React.js · TypeScript · Node.js · MongoDB · OpenAI API · Chart.js*

- Built a full-stack MERN application that ingests dynamic Excel datasets and uses AI/LLM APIs to auto-generate KPIs, interactive Chart.js visualizations, and anomaly detection; engineered Node.js XLSX data pipeline with MongoDB storage, RESTful API design, and a responsive component-driven React.js frontend and production deployment on Vercel/Render.

AdmitHub — Student Counseling Platform · *React.js · Node.js · Express.js · MongoDB · JWT · RBAC*

- Full-stack MERN SPA with JWT auth, role-based access control (RBAC), and authorization workflows; React Router navigation, Axios API calls, Mongoose ODM, and a 500+ institution catalog with advanced search.

EDUCATION

B.E. Electronics & Telecommunication (Honors: AI/ML) — VESIT, Mumbai *CGPA: 9.02 | 2020 – 2024*
